

DIGITALVODKA · COMPANY ASSETS

End User License Agreement

Version 4 · Effective September 1, 2026 · ships with v104.0.29

Licensor: DigitalVodka · www.digitalvodka.com

Read this before you install or use the program. Installing, copying, clicking I Agree, or using Company Assets means you accept this agreement. If you do not agree, do not install it and delete the files. Version 4 is the same terms as Version 3 (August 21, 2026), reissued so the on-screen stamp and this paper match.

1. Who this is between

This is a license from DigitalVodka (“Licensor,” “we,” “us”) to the person or company using Company Assets (“you”). The software, documentation, demo data, installers, and related files are the “Software.” This is a license, not a sale.

2. License grant

We grant you a limited, non-exclusive, non-transferable, revocable license to install and use the Software on computers you own or control, for your internal business operations, while you comply with this agreement. Demo mode is for evaluation. A paid activation key unlocks the licensed limits described in the program. You may make one backup copy of the installer.

3. What you do not get

You do not buy the copyright, trademarks, source, encryption design, or DigitalVodka name. You may not rent, sublicense, or resell the Software as your own product. You may not remove copyright notices. Reverse engineering is allowed only where a law says you must be allowed to, and then only to that extent.

4. Your data stays on your computers

Company Assets is a desktop program for Windows, macOS, and Linux. Inventory, people, vendor files, and vault items are stored in folders you choose (typically Documents/CompanyAssets) on machines and shares you control. We do not host your database. We do not see your share key, passwords, or employee records. There is no iPhone or Android product — those devices cannot share the office folder the same way.

5. You are responsible for security and backups

You alone are responsible for: (1) Keeping the share key, login passwords, and recovery answers secret. (2) Deciding who may open Documents/CompanyAssets, OneDrive, USB drives, backups, and the program folder. (3) Making backups. Export the database if you need a copy. We do not keep a spare. (4) Patching operating systems, antivirus, ransomware defense, and physical theft of laptops. (5) Complying with employment, privacy, tax, and records laws for the people and data you store. (6) How you or a consultant implements, deploys, or trains staff on the Software. Encryption reduces risk. It does not make hacking, theft, lost keys, or a stolen unlocked computer impossible. If the share key or an Admin password leaks, an attacker with the files can read them.

6. Acceptable use

You will not use the Software to commit a crime, to steal credentials, to store data you have no right to store, or to attack the Software or other systems. You will not use Demo data as if it were a real production record of living people.

7. No warranty — AS IS

THE SOFTWARE IS PROVIDED “AS IS” AND “AS AVAILABLE,” WITH ALL FAULTS. TO THE MAXIMUM EXTENT PERMITTED BY LAW, WE DISCLAIM ALL WARRANTIES, EXPRESS OR IMPLIED, INCLUDING MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, TITLE, NON-INFRINGEMENT, QUIET ENJOYMENT, AND ANY WARRANTY THAT THE SOFTWARE WILL BE ERROR-FREE, SECURE, OR UNINTERRUPTED, OR THAT DATA WILL NOT BE LOST, CORRUPTED, OR ACCESSED BY OTHERS. We do not warrant that encryption, the vault, file folders, or a shared Documents folder will prevent hacking, theft, ransomware, insider misuse, bad implementations, or operator error.

8. Limitation of liability

TO THE MAXIMUM EXTENT PERMITTED BY LAW, DIGITALVODKA AND ITS AFFILIATES, CONTRACTORS, AND SUPPLIERS WILL NOT BE LIABLE FOR ANY INDIRECT, INCIDENTAL, SPECIAL, CONSEQUENTIAL, EXEMPLARY, OR PUNITIVE DAMAGES, OR FOR LOST PROFITS, LOST REVENUE, LOST DATA, BUSINESS INTERRUPTION, COST OF SUBSTITUTE SOFTWARE, OR COMPUTER DAMAGE, EVEN IF ADVISED OF THE POSSIBILITY. This includes, without limitation, claims arising from: data loss; corrupted databases; forgotten passwords or share keys; hacking; theft; ransomware; unauthorized access; improper use; misconfiguration; third-party implementations or consulting; shared-folder mistakes; OneDrive or network sync; operating-system bugs; browser bugs; and use of Demo mode in production. OUR TOTAL LIABILITY FOR ALL CLAIMS IN THE AGGREGATE WILL NOT EXCEED THE AMOUNT YOU PAID US FOR THE ACTIVATION KEY THAT IS THE SUBJECT OF THE CLAIM IN THE TWELVE MONTHS BEFORE THE CLAIM. IF YOU USE THE DEMO AND HAVE PAID NOTHING, THAT AMOUNT IS ZERO. Some places do not allow some of these limits. In those places, the limit is the maximum the law allows. This agreement does not limit liability that the law says cannot be limited (for example, liability for our own willful misconduct where that rule applies).

9. Indemnification

You will defend, indemnify, and hold harmless DigitalVodka from claims, damages, losses, and reasonable legal fees arising out of: your use of the Software; data you store; your employees or contractors; your sharing of the database; your implementation; or your violation of this agreement or of law. We may participate in the defense with counsel of our choice at our expense.

10. High-risk use

The Software is not designed for life-support, emergency dispatch, aviation, nuclear, or other high-risk environments. Do not use it where failure could cause death, personal injury, or severe environmental damage.

11. Updates, keys, and support

We may change the Software. We are not obligated to provide updates, hosting, or support except as we separately agree in writing. Activation keys are licensed to your organization. Do not post keys on the public internet. Purchase keys at www.digitalvodka.com.

12. Term and termination

This license lasts until you stop using the Software or we terminate it for your breach. On termination you must stop using the Software. Your copies of Documents/CompanyAssets remain your data — we do not delete them, and uninstallers are written not to wipe that folder. Surviving sections include 3–10, 13, and 14.

13. Governing law

This agreement is governed by the laws of the United States and the state of the Licensor’s principal place of business, without regard to conflict-of-law rules. Exclusive venue is the state and federal courts in that place, except we may seek injunctive relief anywhere to protect intellectual property. You waive class actions and jury trial to the extent the law allows. If a court finds a clause unenforceable, the rest stays in force.

14. Entire agreement

This is the entire agreement for the Software. It replaces prior oral or written terms about the same subject, except a signed paper contract that expressly says it controls. We may update this EULA in a later version; using that later version is acceptance of the new terms. Notices: www.digitalvodka.com.

Company Assets EULA v4 · DigitalVodka · Windows, macOS, and Linux. This document ships next to the installers and is shown on first run. It is a legal agreement, not personalized legal advice. Have your own lawyer review it if your company requires that.
